**Kurt, Christina
& Jed**

Todd and Karen

Fellow Cattlemen,

We are very excited to present our 2019 sale offering. With this year's record snow fall and cold temperatures, the cattle and us can't wait to see green grass again. Despite the harsh weather cattle actually seem to enjoy all this snow. Often when going out to feed or visit the cattle they are jumping around and seem to welcome the fresh snow. Maybe the cows know that lots of snow will make a lot of green grass.

This year's bull offering will be a very consistent and uniform group of bulls. We treat and feed our bulls as athletes, getting them ready for the summer breeding season. We strive to use the top sires in the Angus breed. Keeping in mind good maternal traits, docility, good growth and longevity into our cow herd. We are offering bulls that will work on your heifer program as well as the cows and always looking to introduce some fresh genetics to your herd. All the registered bulls and heifers have been i50k tested for parentage and current genetic traits, so producers can make the best buying decision for their program.

This year we will be offering 10 open heifers from the heart of our herd. These heifers will make an excellent addition or start to your herd.

Please feel free to contact us with any questions. We look forward to talking with everyone about the cattle. We strive to raise good cattle that will produce good gaining cattle and stay in your herd a long time. Thanks for all who make this sale possible and we will see you at the sale.

Sincerely,

Kurt & Todd Hallstrand

**\$Value
Indexes**

CALVING EASE DIRECT (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

BIRTH WEIGHT EPD (BEPD), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WEANING WEIGHT EPD (WEPD), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

YEARLING WEIGHT EPD (YEPD), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MATERNAL MILK EPD (MILK), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

CARCASS WEIGHT EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

MARBLING EPD (MARB), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

RIBEYE AREA EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

WEANED CALF VALUE (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

BEEF VALUE (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

HALLSTRAND ANGUS

4TH ANNUAL **Production Sale**
Held at the Farm, Prentice, Wisconsin

SATURDAY • 1 P.M.
April 27, 2019

TERMS AND CONDITIONS:

Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

LIABILITY:

All persons who attend this sale do so at their own risk, legal or otherwise, for their safety or for the behavior of the animals. The owners, sale management firm, and the sale staff assume no liability for property loss or any accident that may occur.

HERD HEALTH:

All cattle will be accompanied by proper health certificates for immediate shipment. All cattle are current on their vaccinations and have had Bovishield Gold, Alpha 7 and Ivermectin + injectable dewormer. All cattle have had the HD 50K Pfizer and parentage test. All bulls will be semen tested in mid-April.

TRUCKING:

Truckers believed to be reliable will be available to assist you in shipping your purchases. Will provide complimentary transportation on bulls delivered within 200 miles of the sale.

LIVESTOCK MORTALITY INSURANCE:

To properly insure your investment, James F. Bessler, Inc., will be available to assist you with mortality insurance coverage. (815) 762-2641.

SUPPLEMENTAL INFORMATION:

A supplemental sheet will be available sale day with complete and up-to-date calving information. Announcements from auction block regarding the cattle selling in this sale take precedence over information listed in this sale book. Up-to-date genetic recessive status can be viewed online at www.angus.org.

FOOD AND REFRESHMENTS: A complimentary lunch will be served at Noon on sale day.

Visit the *Angus Journal* Web site, www.angus.org and view this sale book online. References: *American Angus Association*®, *AHIR*®, *AngusSource*®, *CAB*®, *Pathfinder*®. EPDs current as of March 13, 2019 Updated EPDs can be viewed online at www.angus.org.

COMMENTS FROM THE SALE MANAGER:

On behalf of the American Angus Hall of Fame, it is a pleasure to be working with the Hallstrand family on this outstanding event. This marks the 4th Annual Production Sale for the Hallstrand family who have been long time Angus breeders who are dominant in the northland with producing performance bulls that will add pounds, eye appeal and balanced traits across the board for EPDs and high maternal traits.

As you flip through the sale book you will find an excellent set of service-age bulls with outstanding EPDs backed by Genomic enhanced EPD performance. You will also find a top-set of females from the heart of the herd.

If you have any questions, please feel free to contact the American Angus Hall of Fame at 816/532-0811.

Sincerely,

Tom Burke

BUY BULLS ON TARGET

Genetic Recommendations:

	Value
Marbling EPD (Marb)	+ 0.53
Dollar Grid Carcass Index (\$G)	+ 34.09

LOOK FOR THE LOGO!

The Targeting the Brand logo is designed to highlight registered Angus bulls with greater genetic potential to produce calves meeting the most challenging specifications of the *Certified Angus Beef*® brand. Bulls must be at least breed average or better for marbling EPD and \$ Grid of non-parent Angus sires to qualify for use of the Targeting the Brand logo. Even when these numbers do not appear on the catalog listing, the logo gives you confidence that these minimum genetic requirements are met. Actual EPD requirements are outlined below based on the breed averages from the Spring 2019 Angus Sire Summary.
